

ECN.Broker™

ECN.BROKER COPYTRADING

⚡ About the service

Copytrading enables investors to directly copy market positions opened by professional traders. This is one of the most convenient income generation tools for investors and professional traders.

Traders create and maintain their own strategies in ECN.Broker CopyTrading. Here they are called strategy managers: their mission is to buy and sell assets profitably, so they receive additional reward from their subscribers. A list of the best strategies is generated in real time on the service main page.

Investors choose and subscribe to strategies from the list. Everything strategy managers do will be copied into subscribers' accounts in real time. Investors don't have to worry about trading: the manager takes care of all the trades.

ECN.Broker CopyTrading has advanced settings and features for convenient strategy management and subscriptions.

⚡ For Investors

Harness the experience of professionals

Strategy subscription in ECN.Broker CopyTrading is one of the easiest ways to use traders' expert knowledge in practice. Strategy subscribers save time, but get the same profit as professionals. By subscribing to the strategies, you do not lose control over your profits and you can still close trades and open new ones.

ECN.Broker CopyTrading has advanced settings and features for convenient management of investment strategies and investments.

Apply expertise to your account in 5 steps:

Step 1

Choose a strategy on the main page of the ECN.Broker CopyTrading service

Step 2

Open a COPY account and deposit as little as \$100

Step 3

Configure and subscribe to your chosen strategy

Step 4

Earn profit every time the strategy manager makes a profitable trade

Step 5

The manager's commission will be automatically withdrawn from your account for subscribing to the strategy

How to choose a strategy

Choose a strategy with the best performance. ECN.Broker CopyTrading contains strategies with different profitability, number of subscribers and volume of managed money. You can estimate the level of risk based on the maximum drawdown. The experience of the manager can be seen by the age of the strategy. Each strategy manager sets its type and level of fees. Choose the most suitable strategy for you based on these parameters

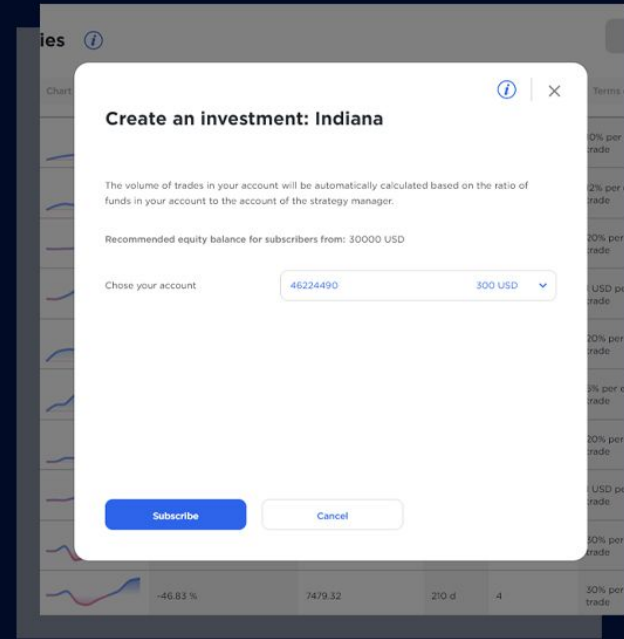

Determine the amount of your investment and how you want to divide it among strategies. Check the recommended investment amount for each strategy. You can open several subscriptions for strategies at the same time on one account, or you can divide a certain amount for each strategy between different COPY accounts. You can open up to 30 subscriptions on one account.

How to set up a subscription

ECN.Broker CopyTrading is a simple and convenient investment tool. The lot size is automatically determined by the ratio of funds on the investor's account to the funds on the manager's account. You only need to make sure that your account has enough funds to execute trades for all connected strategies, otherwise new trades will not be copied. Always make sure that your account has enough funds to make trades, otherwise new trades will not be copied.

You can manage and keep track of your subscriptions on the My Subscriptions page, where they are grouped by account. They can be paused and closed, and these actions will close all active trades in the strategies.

My subscriptions		Active	Closed		Open an account	Deposit	Withdraw
Account	Manage subscription	Profit/loss	Balance	Funds			
46224490	AllianceTrading	0 USD	300 USD	300\$			
	NewTrick						

Choose the best subscription conditions

There are no special commissions for subscription to the strategy in ECN.Broker CopyTrading, except for the strategy manager's fee. It could be in a form of:

**percent
of profit**

**fixed amount
per trade**

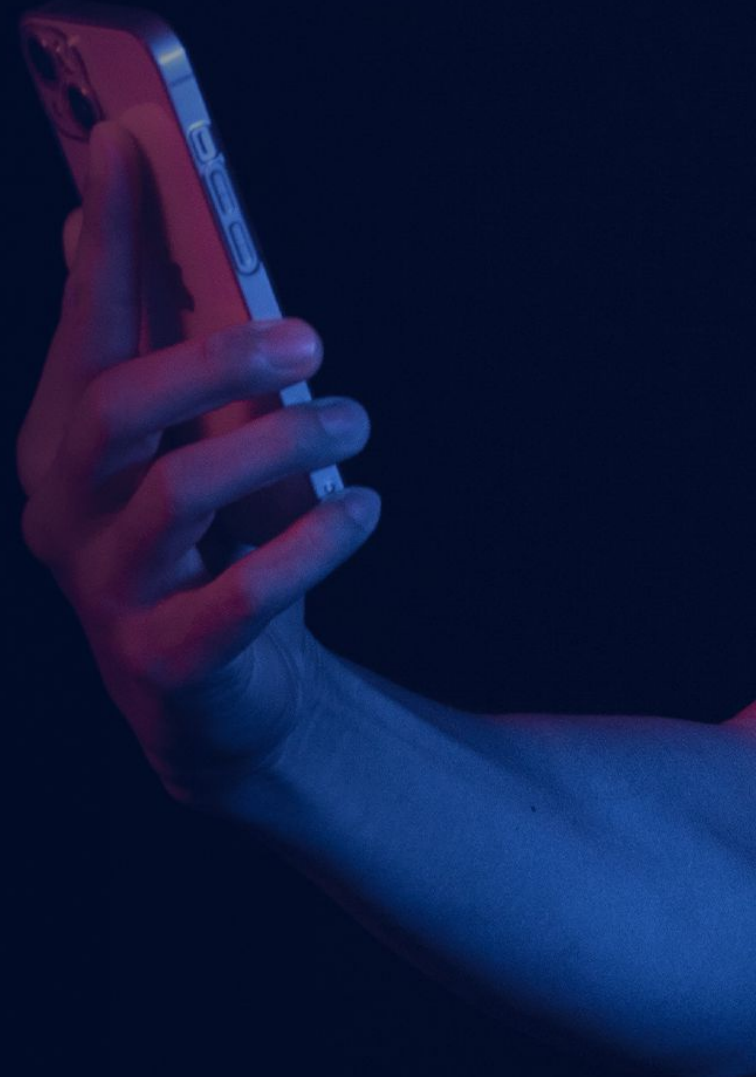

**sum for
a certain period**

The subscription conditions are indicated in the list of strategies and on the page of each individual strategy. When you subscribe to a strategy with a commission per period, you should have enough funds in your account to pay the commission – in addition to the minimum deposit of \$100. The usual brokerage commission is also deducted when you make trades in the strategy.

Investing has become so easy with ECN.Broker CopyTrading

Discover new markets and instruments - indices, stocks, commodities and cryptocurrencies - even if you do not understand them yet. Save time and effort: open an account and subscribe to an ECN.Broker CopyTrading strategy and make profits.

CopyTrading is an easy way to trade different markets, finding the perfect balance between risk and return without having to constantly learn the trading and market environment. Maybe you are not so familiar with trading commodities or metals, but want to balance your portfolio? Just choose the right strategy.

For Professional Traders

Get additional bonuses
for your expert knowledge.

Open your strategy on
ECN.Broker CopyTrading
and get regular rewards.

Discover your own trading strategy in 5 steps:

Step 1

Open a COPY account in your ECN.Broker personal area

Step 2

Open the strategy by clicking the button on the My Strategies page. Choose the available account and set up one of the three types of commission

Step 3

Name your strategy, so subscribers understand what you are focusing on in trading. Specify the recommended investment amount for your strategy

Step 4

Fund your account and start trading according to your expert vision. There are no minimum or maximum deposit limits for your strategy: trade as you see fit

Step 5

Profit not only from trades, but also from each subscriber

One account works for only one strategy. The strategy account should not contain active subscriptions for other strategies. You must not share information about yourself and your trading style with your subscribers.

The screenshot displays the 'My strategies' section of a CopyTrading platform. At the top, there are navigation tabs: 'Top Trading Strategies', 'My subscriptions', and 'My strategies' (which is selected). To the right, there is a user profile icon (UK flag), an email address 'support@ecn.broker', and a share icon. Below the navigation, the 'My strategies' title is followed by filters for 'Active' (selected) and 'Closed', and an information icon. Action buttons for 'Create Strategy', 'Deposit', and 'Withdraw' are also present. A table below shows the details of the strategy 'my strategy'.

Manage strategy	Profit/loss	Subscribers	Balance	Funds
my strategy	0 USD	0	300 USD	300 USD

Better conditions mean more subscribers

The longer your account's trading history is and the more information you provide to your subscribers, the more likely you are to gain enough followers. You can set up any convenient form of compensation, but try to offer fairly attractive terms to your subscribers.

Convenient trading and better speed of trades

Being a strategy manager on ECN.Broker CopyTrading means instant execution and copying of trades without requotes. Low spreads, 270+ trading instruments in various markets (even cryptocurrencies!) and leverage of up to 1:1000: ECN.Broker CopyTrading offers everything to make you and your clients an overwhelming success.
